Cc: Chris Barker chris.barker@imagineers.ai

Dear Rodney & Carl,

Thank you very much for your time yesterday.

As promised we herewith provide you with some follow up information.

1. Executive Briefing

We would be delighted to conduct a 2-hour Executive Briefing for your executive team. This will help you with "pinpointing the right opportunities and use cases" for GenAI in your business (as per Carl's original email).

We can offer this Briefing for free; as our investment in a potential relationship, and to give you the confidence that we can be of assistance down the line.

This session and your feedback would also provide input into the Executive Masterclass, which we would tailor to your organisation.

The details of the Briefing are at the end of this email in Appendix A.

We could conduct this briefing session in the week of 02 February 2026.

2. Executive Masterclass

We are offering customised 2-day Executive Retreat sessions to organisations with the objective of transforming participants from AI-curious professionals into AI-capable practitioners, and helping you gain a competitive edge as a person, a team, and an organisation.

Please note that this Masterclass is based on our own work helping organisations deploy GenAI in their organisations.

The sessions are very hands-on and practical, and incorporate the insights from the Executive Briefing session via relevant case studies.

The costs of this Masterclass are as follows:

- Workshop Facilitation Fee (2 Days, 2 Senior Facilitators) – R165,000 ex VAT
- Bespoke Course Materials & Pre-work Development – R20,000 ex VAT
- Tool Licensing, Setup & Technical Support – R10,000 ex VAT

Total amounts to R195,000 ex VAT.

For any subsequent session, we waive the R20,000 preparation fee, provided it is within a 4-week period. The reason for this is that the technology is moving so fast that we continuously have to update the Masterclass to the State of the Art of GenAI capabilities and the relevance for your organisation.

For the participants we will leave the course materials behind in a shared Google Folder or OneDrive folder.

We would assume that the training will take place in one of your offices in Gauteng (equipped with WiFi and presentations screens), and that you will take care of catering and other amenities for your staff.

We can accommodate a maximum of 18 participants (6 breakout groups of 3; 3 groups per facilitator), but the ideal group size is 12 (4 breakout groups of 3, 2 per facilitator).

We will incorporate examples and use cases from your own business so as to make the course relevant to your situation.

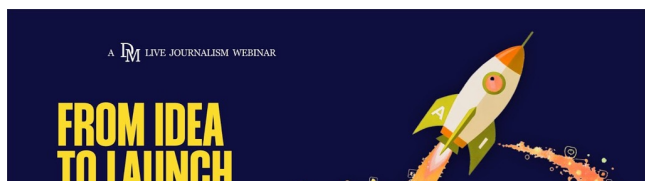

The training will be conducted by myself and Chris Barker. Between us we have over 60 years of experience in establishing and running multi-billion rand businesses in Africa. I for example re-launched Apple in Southern Africa in 2001, and Chris established one of Africa's largest NGOs (Right2Care). What our experience has in common is that we have worked at the forefront of technology our entire professional lives.

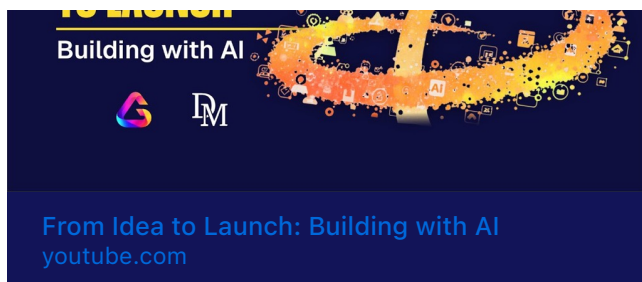

We established Imagineers.Ai in early 2023 and have been devoting our time to helping organisations explore and deploy GenAI ever since.

We can do this Masterclass from 02 March 2025 onwards.

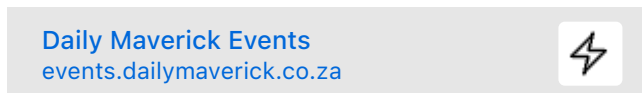

3. Credentials

This webinar we did for Daily Maverick gives you some insight into what topics we would cover:

There is another DM Webinar this coming Thursday, whereby we will explain the upcoming Executive Masterclass in more detail:

If you would like to experience the (generic) Masterclass yourself, we still have some slots open:

The first 2 sessions of the DM Masterclass were well received.

We did a similar Executive Masterclass for the management team for one of the largest IT companies in SA, and this was their feedback:

- "You are an amazing team, consistently engaging with students at their level to understand their challenges and support them in finding effective solutions."
- "Great training, really enjoyed it."
- "Appreciate limited bias towards specific vendors/ tools, but rather your focus on the abilities of the numerous tools."
- "Great Course!"
- "Thank you for an insightful and well-structured training. The content was clear and practical, and I appreciate the effort put into making it engaging. Looking forward to applying what I have learned to my daily tasks."
- "It was a great course, allot to take in but once I start to use Ai more I would start to understand it more and be able to use it in different ways."
- "I really enjoined this training. the training material was readable and clear."
- "I never had this much fun and experience in just 2 days."
- "Easy to understand and clearly delivered."
- "A big thank you to the trainers: highly knowledgeable individuals who are passionate about their work. I truly enjoyed the experience."
- "It was a very interesting training, and I am grateful that I was part of it. I wish more people in our teams can also be exposed to it."
- "Thanks for being very patient and you have opened my mind, and I appreciate the knowledge I received, and my creativity is on different level now."
- "Thank you for introducing me to AI. This was a great opportunity to learn. I have learned a lot."

Appendix a – Executive Briefing Format

The Executive Briefing (titled 'From Personal Mastery to Organisational Impact — GenAi @ Chipkins Puratos) would have the following sections:

1. Introduction
2. Opportunities for GenAi @ Chipkins Puratos

3. Imagineers.AI's Philosophy & Beliefs
4. Fundamentals of GenAI
5. Way Forward

The section 'Opportunities for GenAI @ Chipkins Puratos' covers the following topics:

- The current landscape of GenAI and LLMs
- How LLMs work
- Ethics and Risks
- Security & Data Privacy
- Governance
- The Critical Role of Prompt & Context Engineering
- Narrative Coding & Workflow Engineering

Appendix B – Executive Masterclass Format

The Masterclass programme would be roughly as follows:

Day 1

Module 1: Fundamentals & Prompt Crafting (09:00 – 12:30)

AI concepts, SQ framework, ethics, security & governance. 5-element prompt framework and advanced techniques. Hands-on practice.

Lunch Break

Module 2: Document Creation, Manipulation & Review (13:30 – 16:30)**

AI for professional documents: business plans, RFPs, presentations, contracts. Realistic case studies.

Module 5.1: Personal Plan – Introduction (16:30 – 17:00)**

90-day AI implementation framework. Overnight homework for reflection.

Day 2

Module 3: Research, Data Analysis & Artefact Creation (09:00 – 12:30)**

Deep research techniques, AI tool opportunities, product requirements documents, financial models.

Lunch Break

Module 4: Agents & Workflows (13:30 – 16:00)**

Custom AI assistants (GPTs and Gems), autonomous agents. Hands-on creation of personalised tools.

Module 5.2: Personal Plan – Finalisation (16:00 – 17:00)**

Detailed 90-day implementation plans. Peer feedback and presentation.
