Objective

Detail-oriented and reliable Electrician with experience in Industrial electrical systems, seeking a position to utilize my expertise in troubleshooting, repair, and maintenance to ensure the safety and functionality of electrical systems.

Experience

- **Saint Gobain** 06/01/2025 -
Electrician

Minimise plant downtime by ensuring effective and efficient maintenance is carried out, ensuring a smooth and efficient maintenance operation of the factory.

Maintain a high standard of discipline and adherence to company procedures and required safety standards.

Inspect all sections of plant under your control daily, to assess the condition thereof and effect necessary repairs or maintenance.

Perform fault finding on Scada, PLC systems and to improve plant efficiency by optimising the available equipment.

Daily reporting of breakdowns/problems that happened on shift and filling in of required paperwork. (EWO, QK, Tags, etc.)

To identify improvements in the process that could be made by modifying or replacement of plant and actively participate in PM projects to ensure there timeously completion.

To inspect all sections of the plant frequently and to assess demands that will be made on the E&I section, to action plans accordingly.

Programme, design and modify PLC, Scada and Industrial Computer network systems, and to assist in establishing and enforcing protocol

- **Ecochem Pumps** 2023/06/01 -
Electrician

Water Treatment and Waste Water Treatment plants (Ethekewini Municipality)

Installation, Maintenance , fault finding and inspection of various equipment, including Pumps, maintenance of MCC ana PCC, VSD installation and programming (ABB, Schneider), Maintenance of PLC and Scada systems (Siemens, Allen Bradley, Schneider), circuit breakers, meters, conventional controls, electronic control systems, programmable controls, relays, protective devices, motors, motor protection sensors and mechanical equipment.

- Senwes** 2020/07/01 - 2023/05/31
 Electrician
 Scheduled and planned maintenance (Schneider PLC and VSD)
 - Reactive breakdown maintenance.
 - Assist with annual pre-season inspections.
 - Assist with capital projects.
 - Occupational health and safety management.
 - Conduct administrative work.
 - Employee management (includes mentoring and coaching of artisan assistants).
 - Maintain, Upgrade and Optimize electrical installations of silos according to relevant statutory & regulatory specifications and standards.
 - Afrisam** 2019/02/01 - 2020/06/31
 Electrician Assistant
 Assisting with installations, inspections, diagnosing faults, testing, repair and maintenance of electrical (Grushers, Screens and Jaw Grusher) or electronic (Schneider PLC and VSD) wiring, equipment, appliances, apparatus.
 - Rand Water** 2015/09/01 - 2018/10/25
 Electrical Apprenticeship
 Identifying, analyzing, troubleshooting, and assisting with repairs of equipment and electrical faults.
 Interpreting schematics.
 Ordering replacement parts and equipment as needed.
 Completing electrical installations and carrying out various maintenance duties.
 Working irregular hours and overtime when required.
 - Ab inBev** 2013/03/01 - 2014/04/31
 Packaging Operator and Quality Control
- Education**
- Mopani South East Tvet College** 2011
 Electrical Engineering
 N4
 - Mopani South East Tvet College** 2009
 Electrical Infrastructure and Construction
 NQF Level 4
 - Mpapatla High School** 2006
 Grade 12

Skills

- Fast Learner Team player Good communication skills

Projects

- Enviro cell installation**
 Installation of Enviro Cell PLC, control circuit, sensors, drives, actuators and pumps. Commission the projects

Personal Details

- Date of Birth : 28/07/1986
- Nationality : South African
- Designation : Electrician
