Professional Experience

SODECIA AUTOMOTIVE PRETORIA MAINTENANCE TECHNICIAN

06/22 - Present

- Conducted maintenance on 3D CNC Prima Power Laser Next Machine, ensuring proper hole alignment on checking fixtures.
- Specialized in preventive and corrective maintenance on VLB Bending machine, focusing on electrical and pneumatic systems.
- Proficient in PLC fault finding and troubleshooting AC/DC drives.
- Experienced in maintenance and start-ups of projection welding and general welding machines.
- Skilled in operating Lathe machine for modifying pins and electrodes to job specifications.
- Knowledgeable in KUKA robotics for touch-ups, troubleshooting, and welding error correction.
- Set up and adjusted parameters on Projection Welding equipment machines for optimal performance.
- Proficient in using HMI to quickly identify faults on machines.

MAXE PREMIUM AUTOMOTIVE ACCESSORIES MILLWRIGHT ARTISAN

09/21 - 02/22

- Performing planned, preventative and corrective maintenance on various machines. Attending breakdowns repairing
- machines cutting saws, modifying machines repairing single phasing motors on bench grinders, repairing portable
- electrical hand tools, machine installations gas welding and also arch welding. Changing torche for robots and
- Responsible for basic maintenance on lights housekeeping and also Attending to job cards on normal
- basis as per company instructions. Complete breakdowns work
- orders and applying fault-finding techniques to address breakdowns. Maintain and repair mechanical parts as
- well as electrical equipment

BIZAFRICA ASSISTANT TECHNICIAN

07/21 - 09/21

- Installing Fiber to the home(FTTH) preparing material that will be used for the job and tools to be used the
- splicing machine, fiber stripper and the cliver. Splicing a dropped specific fiber from the pole and splice again on the house the dropped fiber cable together with the ONT. Precautions and safety
- must be taken with fiber cable not bending them at 90 degrees or sharp bends they brake easily

TRANSNET ENGINEERING MILLWRIGHT APPRENTICE

04/17 - 11/20

- Performing planned, preventive and corrective maintenance on equipment breakdowns.
- Responding to the
- electrical and mechanical breakdowns to keep the plant up and running. Machine installation,
- connect power units to machines and test unit to evaluate the machine operation. Repair and
- replace broken/malfunctioning components of
- machinery, lubrication of machines, general maintenance such as lighting and housekeeping.
- Complying with all safety
- measures as per company standard/policy for all work processes

Education

TRANSNET SCHOOL OF ENGINEERING MILLWRIGHT TRADE CERTIFICATE

04/17 - 11/20

DURBAN CENTRAL TECHNICAL COLLEGE N6 ELECTRICAL ENGINEERING

07/13 - 11/16

COASTAL TVET COLLEGE N2 MECHANICAL ENGINEERING

08/17 - 12/17

CLAIRWOOD SECONDARY SCHOOL GRADE 12

02/05 - 12/09

Key Skills

- 3D CNC laser machine maintenance
- Basic KUKA robotics
- Preventive maintenance, Corrective maintenance and Planned maintenance on plant equipment
- machines. Pneumatics, hydraulics, conveyors, valves, centrifugal pumps, worm gearboxes.
- Basic Microsoft package, fault finding on (AC, DC and PLC) panels
- Three/single phase motors, servo motors, electronics, soldering, press machine
- Dismantle, overhauling, assembly, welding(arc and gas), overhead cranes maintenance Schematic
- diagram reading/interpretation, rigging, wiring and machine installation. Commissioning and
- installing komax machine and schunk machines.
- Fault find in electronic devices and solder.
- Basic VSD drives
- Electrical and Mechanical troubleshooting
- Perform lockout procedure on machine and equipment to prepare maintenance
- PLC installation, fault finding and basic programming Design and wire single/three phase circuits.
- Equipment knowledge and sense of urgency
- Ability to work well under pressure
- Ability to function in a team
- Attention to details and Accurate
- Install or replace and commission electrical equipment. Disconnect and connect electric motors.
- Pedestal Machines skills
- Press machines maintenance
- Bending machine maintenance
- Kuka robot teaching

Interests

- Getting a mechanical Government certificate of competency (GCC) and wiremans licence
